## **Modul 04 - Testing Principle**

## Case Study

• Buatlah test scenario untuk website myskill.id

Silakan buat di spreadsheet/excel dengan format bebas. Jika ingin menggunakan website dibawah ini dipersilakan.

## Contoh template yang dapat digunakan:

| Test Scenario<br>Template |   |   |                                    |
|---------------------------|---|---|------------------------------------|
| ID                        | Test Case                                   | Test Data                                       | Pre Conditions                     |
| TS_LG_001                 | Verify login with valid username & password | Email:<br>testing@google.com<br>Password: 12345 | Registered in myskill              |
| TS_LG_002                 | Verify login with valid google account      | Email : testing@gmail.com                       | Registered in myskill and google   |
| TS_LG_003                 | Verify login with valid facebook account    | TS_Email : testing@gmail.com                    | Registered in facebook and myskill |
